RE: Ala Wai Watershed Special Resource Study Report and Ho'okuleana 2016 Design

Dear Stakeholders and Prospective Advocates,

I have spoken in considerable depth about the Ala Wai with Derek Chow from the US Army Corps of Engineers, Karen Ah Mai and Tom Heinrich from the Ala Wai Watershed Association.

Derek Chow is meeting with me soon, so it is with pleasure I also present to you a draft outline for an Ala Wai Watershed Special Resource Study Report which proposes a Waikīkī National Recreation Area and the "Ho'okuleana 2016 Design" which proposes engineering improvements related to flood mitigation for the Ala Wai.

Please review the above. The following **files and documents can be viewed online by February 18, 2017**, or shortly thereafter:

- Ala Wai Watershed Special Resource Study Report
- Ho'okuleana 2016 Design: Videos, Architectural renderings, Site Map, Drawings

I hope to meet with you when **I am in Honolulu from February 21, 2017 through March 20, 2017** and any time after that as well.

Thank you for your patience and cooperation.

Sincerely,

Emy Louie, Founder
